

— Call for Papers —

A Symposium on **Advances in Nontraditional Manufacturing Processes**

Sponsored by the ASME Manufacturing Engineering Division's
Manufacturing Processes Technical Committee
2019 ASME International Manufacturing Science and Engineering Conference (MSEC)*
June 10-14, 2019
Erie, Pennsylvania
Hosted by Pennsylvania State University, The Behrend College

Technical Focus

Nontraditional Manufacturing (NTM) processes provide attractive alternatives for machining complex geometry in the advanced, high-strength and temperature-resistant materials being used in industry today. NTM processes rely on mechanisms other than direct mechanical contact between the cutting tool and workpiece, and their application creates a unique set of technical problems to be solved. This symposium will focus on state-of-the-art research on *macro-, micro-, and nano-*NTM processes and their applications. Research of interest includes: new NTM process development; analytical, mechanistic, and numerical modeling; experimental studies; and process monitoring and control. Specific topics of interest include, but are not limited to:

- Electro discharge/Electrochemical Machining (EDM/ECM)
- Ultrasonic Machining (USM)
- Abrasive/Water Jet Machining(A/WJM)
- Surface Processing (Coating, Texturing)
- Rapid Prototyping/Manufacturing/Tooling
- Environmental and Safety Issues in NTM manufacturing
- Industrial Applications of NTM manufacturing
- Other non-traditional machining methods.

Paper Submission

Authors are encouraged to submit an abstract and full manuscript for review by **November 02, 2018** via the conference website. Final revised manuscripts must be submitted by **March 15, 2019**. The [copyright transfer form](#) must be filled out by March 8, 2019, and the presenting author must [pre-register](#) by **April 05, 2019**; or the paper will be withdrawn from the conference. Authors may also consult www.asme.org/divisions/med/call/ for updates. **No papers are to be submitted to the organizers; submissions will only be accepted via the conference website at www.asmeconferences.org/msec2019/.**

Additional Symposium Activities

To highlight advancements in this technical area, symposium organizers will:

- work to attract a high profile international keynote speaker
- organize a special issue in the ASME Journal of Manufacturing Science and Engineering or ASME Journal of Micro and Nano-Manufacturing
- organize a state-of-the-art paper that will be the lead article in the special issue

Organizers:

Dr. Murali Sundaram, University of Cincinnati, Cincinnati, OH, USA. Ph: (513) 556-2791, murali.sundaram@uc.edu

Dr. Zhigang Wang, United Technologies Research Center, East Hartford, CT, USA. Ph: (513) 739-8582, kingzhigang@gmail.com

Dr. Muhammad P. Jahan, Miami University, Oxford, OH, USA. Ph: (513) 529-0349, jahanmp@miamioh.edu

Dr. Meng Zhang, Kansas State University, Manhattan, KS, USA. 785-532-3732; meng@ksu.edu

* The conference is collocated with NAMRI/SME's 47th North American Manufacturing Research Conference (NAMRC47), which will have a separate call-for-papers. Please note that submissions of the same paper to more than one conference is not permitted.
